

“Enter Arcade” Option on the menu.
Login Screen.
Not a member? Use link at bottom to sign up.

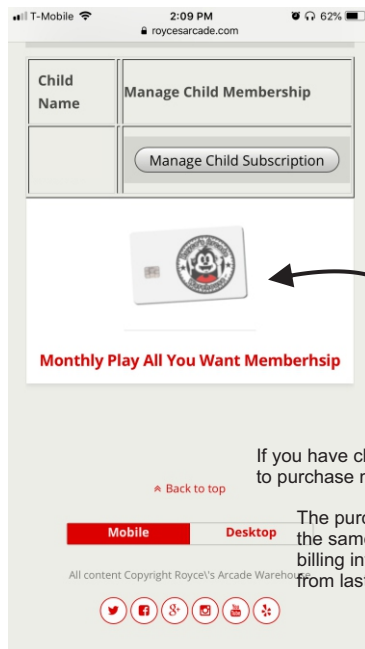

Basic Sign Up Info. (note the parent account will require an email address.)

Start by buying a membership for yourself.

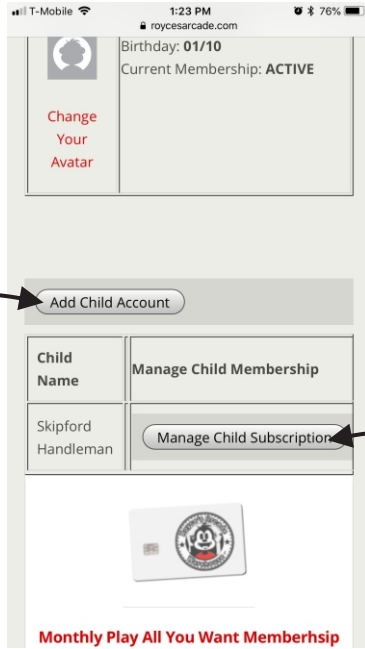

You can follow the link back to the manage profile page

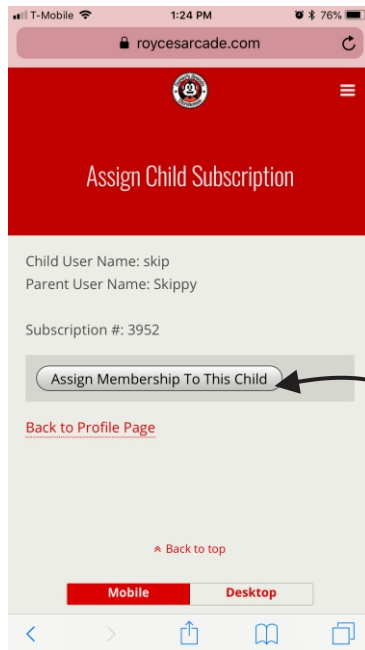

If you have children, you will need to purchase memberships for each.

The purchase process will be the same, but the customer's billing information should be there from last purchase.

Once you have purchased memberships for your children, you will need to create accounts for them.

Once your children have accounts, you can assign monthly memberships to them.

You will see EVERY membership you bought here. You can select any of them and assign it. In the future if you visit this screen, you will see the membership has been assigned.
